WORK EXPERIENCE

Freelance 02/2023 - Present

Frontend Developer

- Create visually appealing and responsive user interfaces.
- Implement best practices for efficient rendering and resource utilization.
- Implement interactive features and dynamic behavior using JavaScript.
- Test and ensure that web applications work seamlessly across various browsers and platforms.
- Use version control systems like Git to manage and track changes in codebase.

Projects

Ten Vape www.tenvape.pl

HTML/CSS/JS SCSS BEM Gulp Swiper.js A11Y MOBILE FIRST

Business website for a local e-cigarette store. My first commercial project entirely designed and implemented by myself with full **hosting configuration**. In implementation, I focused on improving **accessibility** and **performance**. I used external libraries such as **Swiper.js** and build it with **Gulp.js**.

M-Data www.m-data.me

HTML/CSS/JS TypeScript SCSS BEM Parcel.js Swiper.js A11Y OOP MVC

Individual project - **SPA** Portfolio dedicated to Data Analyst. The main objective was to present the analyst's biography, skills and Power BI reports. My wholly designed and developed site was implemented with **Object-Oriented Programming** approach and **Model-View-Controller Pattern**. To build it, I used **Parcel.js**.
