ABOUT ME

I am mainly a React Frontend developer who also likes to do things in the backend using ExpressJS and NestJS. I have been programming at commercial level for about two years.
Independence, persistence and patience are the features of my personality. My goal is to achieve an expert level by continuously improving my skills and keeping up with industry best practices.

SKILLS

HTML/CSS • **JavaScript** (ES6) • **TypeScript**

React (Redux Toolkit • RTK Query • React Router • React/TanStack Query • Context API • React Hook Form)

Jest/Vitest & React Testing Library

SASS/SCSS (with BEM) • **TailwindCSS** • **CSS Modules** • **Styled Components** • **Material UI**

NodeJS • **ExpressJS** • **NestJS** • **REST API** • **Microservices**

CI/CD Github Actions • Docker

AI/LLM/LangChain.js • SQL • Webpack • Vite.js • Gulp.js • Parcel.js • GIT/GITHUB • Postman

Mobile First • RWD • A11Y • 3RD PARTY LIBRARIES (Axios, Swiper, AOS, Moment etc.)

WORK EXPERIENCE

FCB Health Spark | An IPG Health Associate Company — 10/2024 - Present
Junior Frontend Developer

- **Web Application Development**: As a main frontend developer - Design, implementation and testing of frontend web application functionality using React, Redux, RTK Query and Material UI. Responsibility for creating readable and efficient code that follows best practices.
- **Backend based on NestJS and microservices architecture**: Design, implementation and testing of application backend modules, using NestJS and microservices architecture. Ensuring system scalability, reliability and security.
- Implement unit tests for frontend and backend code to ensure high quality and stability of applications.
- Collaborate in the implementation and maintenance of applications in a production environment.

Freelance — 02/2023 - Present
Frontend Developer

- Create visually appealing and responsive user interfaces.
- Implement best practices for efficient rendering and resource utilization.
- Implement interactive features and dynamic behavior using JavaScript.
- Test and ensure that web applications work seamlessly across various browsers and platforms.
